

## How to make a basic 5-petal flower

### What do I do?

Follow our video [www.inionarts.co.uk/video.html](http://www.inionarts.co.uk/video.html) or the instructions below

	Cut 5 pieces of wire about 8" long
	Take something round (for example a mini pot of jam)
	Wind one piece of wire around it so that you have one long tail and one short tail
	Twist the two tails together, taking care as the wire is sharp at the end.
	Slide the wire off the jampot and you have a circle shape, resembling a balloon on a string
	Make your petal. Put your thumb inside the circle opposite the tail and push upwards. The sides will come in and you have an oval shape. Pinch in the top so you have a Russian Doll shape.
	Bend the petal shape 90° to the stem. This is very important – don't miss it out.
	Bend the petal upwards so you get a "chair" shape.

	<p>Bend the petal down.</p>
	<p>Make 5 petals in total. Put them together to see how they sit next to each other.</p>
	<p>Dip each petal in the resin. Let it drain over the tin for a few moments. Keep the lid on the resin tin as much as possible to avoid resin thickening.</p>
	<p>Stick each petal in the oasis.</p>
	<p>Wait a few minutes for all the petals to dry.</p>
	<p>Take 3 stamens (you can use as many or as few as you like).</p>
	<p>Bend them roughly in half so you have a small bunch with 6 ends showing.</p>
	<p>Take one petal in your left hand (if right handed) and place the stamens up against it.</p>
	<p>Place second petal opposite first petal.</p>
	<p>Add third petal.</p>

	Add fourth petal.
	Add fifth petal.
	Take a small piece of tape, and wind round tightly to hold petals together.
	Petals will move out of position. Don't worry. You can move them back – they are quite robust.
	When you are happy with how the flower looks, wind tape around the wires as long as you want the stem to be. Trim off the end.
	If necessary, re arrange the petals how you want.

**Congratulations! You have a beautiful, ever-lasting, never fading flower.**

For details of other kits, (including but not confined to daffodils, roses, lilies, snowdrops, tulips and irises), related products and workshops please follow us on facebook - [facebook.com/inionarts](https://facebook.com/inionarts) or [www.inionarts.co.uk](http://www.inionarts.co.uk).

Note we sell resin in various colours, and various size tins, as well as accessories such as wire, tape, stamens and mini pliers. Our add-on dragonfly kits contain pre-cut wire, Swarovski crystals and/or glass beads.

We post mainland UK only.
